

# The Climate Marchers are Coming!

The Extinction Rebellion Earth March for Life is coming to Henley on Tuesday April 9th. The marchers are converging on London for demonstrations to demand immediate and effective action on climate change.

The marchers are people of all ages – children, teens, adults, pensioners – all walks of life – parents, students, gardeners, farmers, bankers – and all political persuasions. All sharing a common concern that not enough is being done to address the threat of Climate Change.

Marchers are already on the road. The earliest starters left Land's End on March 10. Others set off from Pembrokeshire a few days later. Groups from Stroud and Oxford will be setting off in time to merge with them as they arrive here in Henley on the 9th April.

It is difficult to predict how many walkers will arrive in Henley on April 9th. A lot will depend on the publicity generated by the march in the next couple of weeks. A lot will depend on the weather. There will certainly be tens. There could be many more.

Could you offer beds, floor space, a patch of grass to put up a tent. Could you offer showers? Do you have connections that could open a communal space? Could you provide food – a meal on arrival, breakfast the next morning, cake? Are you a business that could offer walkers concessions – a free coffee, a free drink? Can you offer other support? Physiotherapy, chiropody, healing, dance therapy, music?

Put Tuesday 9th April in your diary. Come along on the evening and chat with the walkers. Find out why they are walking.

The science is in. The danger is real. The conclusions are scary. The very conservative IPCC has published stark warning of the dangers and has stated that immediate wide ranging action is needed. They published a twelve year program in 2018, so that's eleven years to save the planet.

Except that it is not a program to save the planet. The planet will be alright. It is a program to save human civilisation. Possibly to save the human race. The planet will go on. We may not.

Want to find out more about Extinction Rebellion? Come along to an introductory talk 7:30pm on Monday 25th March in King's Arms Barn RG9 2DG. Off the King's Road ( Waitrose )car park
